24/Seven is a complete Modular Anti-Fatigue Matting System. 574 & 576 NBR are a high-tech mat offering exceptional slip resistance and modular flexibility. Non-slip grit permanently bonded to the surface provides maximum traction even in wet and oily areas, whilst drainage holes keep surface free from liquids and debris. 574 & 576 NBR remains comfortable and safe even in the most demanding conditions.

Product Information :

Suitability: Heavy use in wet and dry applications including hostile work areas where coolant, oil and swarf may be a problem and where extra slip resistance is essential.

Construction:

- Moulded nitrile rubber, resistant to petroleum and mineral oil based fluids
- Non-slip surface of carbide grit sealed with urethane
- 574 NBR has a solid top surface
- 576 NBR has an open surface with multiple drainage holes
- Built-in male connectors on two adjacent sides
- Optional bevelled safety edging

Stock Colour: Black

Stock Sizes: 0.91 x 0.91m interconnecting module

Thickness: 16mm

Guarantee: 1 year

Custom Sizes: Made to order in length and width increments of 30.5cm.

Safety Edge Ramps: Optional Ramp Safety Edges: 76mm x 99cm Black or Yellow Male or Female connectors
