WHY ECOTILE FLOORING?

SHORT LEAD TIMES

Our factory in Bedfordshire works 24/7 to replenish stock quickly, meet customer deadlines and outpace competitors with faster, more efficient output. In parallel, our customer service team work closely with our delivery partners so that you can receive your order in the shortest possible time.

MADE IN THE UK

Ecotile Flooring are proud to fly the flag for British industry and are the only interlocking floor tile manufacturer that holds the full complement of quality accreditations and certifications. We love to work with customers who value the highest levels of service, quality, and technical expertise.

EASY TO INSTALL

Ecotile can be laid over damaged, damp, uneven and contaminated floors with minimal preparation to the substrate. There are no curing or drying times; just lay the tiles while your business continues to operate around you.

COST EFFECTIVE

The loose lay interlocking system means Ecotile can be installed with very little downtime and if a tile is damaged it can be lifted and replaced in minutes. Throw in the 10 year guarantee and it all adds up to a floor that offers excellent value for money!

INTERLOCKING DESIGN

The beauty of the interlocking tile system is that it is possible to create a small temporary point of sale area or a large manufacturing area with demarcated walkways and production zones that can be altered when required.

RELIABLE

Our tiles are exceptionally tough and resistant to impact, heavy loads and high traffic movements. The quality of our product is backed up by superb customer service – but don't take our word for it, see what our customers say!

ENVIRONMENTALLY FRIENDLY

In addition to innovation that maximises recycled material and reduces the energy used to manufacture Ecotile we operate a scheme where we will buy back old Ecotile floors and regrind them to generate the next generation of tiles.

ATTENTION TO DETAIL

Our Managing Director Michael Ollivere has instilled his methodical and systematic approach to manufacturing in to every area of the business. Ecotile genuinely cares about customer service and we always go the extra mile to make sure we deliver on our promises.

OVER 20 YEARS' EXPERIENCE

In 2016 we celebrated our 20th anniversary so when you buy Ecotile you have complete peace of mind about the longevity of our tiles and that our superb customer service team will be there to help when it is finally time to trade in your old Ecotile floor for a new one.
