

Hertfordshire Garden Machinery have established a reputation locally as being the ‘go to people’ for all garden machinery needs.

The Challenge

Hertfordshire Garden Machinery carry a full range of machines from top manufacturers. Their fully stocked showroom allows customers to determine exactly the right machine for their needs. This impressive offering is backed up by an experienced and knowledgeable sales team whose mission is to exceed customer expectations and they provide a flexible collection and delivery service Hertfordshire wide using their own vehicles.

Location: Hertford, UK.

Space: 70m²

1. The business is located in old farm buildings with the showroom occupying what used to be the cowsheds. As such, a damp course had never been laid and any attempt to paint the floor was a complete waste of time as it would come off within 3 months.
2. The existing floor was tamped concrete which is very uneven. The cost and hassle required to either prepare the floor so that paint would stick or level the floor so a floor covering could be laid was prohibitive

The Solution

Market-leading manufacturer of interlocking floor tiles, Ecotile, designs and produces its comprehensive range at its UK production facility - providing durable and safe flooring solutions that can be installed with minimal disruption in commercial and industrial applications around the world.

The E500/7 tile is perfect for damp, damaged, contaminated and uneven floors as the PVC tiles can be laid without adhesive or preparation. PVC is a lazy material that follows the contour of whatever you put it on and the 7mm thickness compensates for the differences in level underneath. The substrate is allowed to breathe under the interlocking tiles and any moisture can evaporate out through the joints.

“We’re very happy with our Ecotile floor, it has completely transformed our showroom to reflect the professional image that are obvious in all other areas of the business. The installation was very straightforward and I would definitely recommend Ecotile to anyone experiencing the same flooring problems that we had.”

Tim Wall - Hertfordshire Garden Machinery.

A Sustainable Solution

All Ecotiles come with a 10-year product warranty as standard. Manufactured using the highest grade material, once the tiles have reached the end of their useful life, we will collect the tiles – free of charge – and recycle them to produce the next generation of Ecotile.

To understand the benefits that Ecotile can deliver to your commercial garages, workshops and showrooms. Please call 01582 788 232 or email enquiries@ecotileflooring.com
