

**Run by respected Alfa Romeo specialists, Alfaholics offers a comprehensive, high quality parts service for owners of 105 series Alfa Romeos around the world.**

## The Challenge

The team at Alfaholics are passionate about Alfa Romeos so whatever your requirement there's a good chance these guys will be able to help. They stock a huge range of quality classic Alfa Romeo spare parts and accessories in their warehouse and also have a wide range of second hand spare parts and rare parts for your classic Alfa Romeo car, including engines and gearboxes, available not only within the U.K., but worldwide via air or sea freight.

In addition, they offer they operate a modern, fully-equipped, 5,000 sq.ft. workshop to carry out a complete range of servicing and upgrades to your Alfa Romeo, whether it is a road car, track day car or race car. Facilities include 2-post & 4-post service lifts, engineered 'flat floor', MIG welding, machining, x-ray crack testing, media blasting, small component painting, tyre changing and wheel balancing.

Location: Bristol, UK.

Space: 302m<sup>2</sup>

1. The existing floor was painted ply which was functioning satisfactorily but didn't create the right image for a workshop servicing Alfa Romeos.
2. Alfaholics wanted a floor that performed well in a workshop environment but that also looked smart and professional to reflect their values.

## The Solution

The E500/7 tile is perfect for garages and workshops as it copes easily with vehicles moving around whilst providing a warm and comfortable surface to work on. The speckled tiles look very smart and modern and in this instance we applied 2 coats of Dr Schutz anti-colour PU sealer which will make the floor extremely easy to clean and maintain for many years to come.

"We're very happy with our Ecotile floor, it projects exactly the kind of image we were after. The installation process was very quick and easy, the floor was pretty much laid on the first day and then applying the sealer took another 2 days with 7 days curing time".

*Andrew Banks – Alfaholics.*
